DETAILED ACTION

Reissue Applications

1. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.
2. Claims 23-46 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue, which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

The claims fail to recite the at least one function selected from the plurality of functions “displayed on the display” (claims 23, 38, 41, 42, 46) and “the thumb wheel including a wheel portion” (claims 38, 41, 42, 46).

Allowable Subject Matter

3. Claims 1-10, 11-14, 15, and 16-22 are allowed.

Response to Amendment

4. The amendments along with the arguments filed therewith have been entered and carefully considered by the examiner.

Applicant argued that the patent to Angle et al (6,366,771) was filed on May 21, 1998 and the present application is a reissue application based on parent application 08/726,03, which was filed on October 4, 1996. Furthermore, Applicant pointed out that the patent to "Angle et al incorporates the patent application (08/726,030) upon which the present reissue is based" in the specification. Applicant contended that Angle et al is not prior art against the claims of the present reissue application. The examiner agrees. Accordingly, the rejection under 35 USC 102 has been withdrawn.

In regard to the rejection under 35 USC 251, Applicant attempted to amend the claims to overcome this rejection. However, Applicant failed to include all the limitations in the amendments to overcome such rejection. Accordingly, the claims remain rejected under 35 USC 251.

In light of the above, this office action is made final.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3661

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
